

# ADVANCED LATHE TOOLS, LLC

## PRICE LIST, APRIL, 2021

### Boring Bars

|                       |        |
|-----------------------|--------|
| ¾" (12" capacity)     | 150.00 |
| 1" (16" capacity)     | 200.00 |
| 1 1/8" (24" capacity) | 275.00 |
| 1 ¼" (33" capacity)   | 345.00 |

### Boring Bar Support Systems

|                               |        |
|-------------------------------|--------|
| Small (10" - 11" Lathes)      | 135.00 |
| Medium (for 11" - 16" Lathes) | 170.00 |
| Large (For 17" - 25" Lathes)  | 190.00 |

### Center Steadies

|                 |        |
|-----------------|--------|
| 10" (2" wheels) | 275.00 |
| 12" (2" wheels) | 340.00 |
| 16" (2" wheels) | 425.00 |
| 18" (3" wheels) | 465.00 |
| 20" (3" wheels) | 495.00 |
| 24" (3" wheels) | 550.00 |

(Riser blocks may be used for other lathe sizes)

\$45.00 for HDPE, \$65.00 for steel riser blocks

|                         |       |
|-------------------------|-------|
| 2" Wheels with bearings | 75.00 |
| 3" Wheels with bearings | 85.00 |

### Tool Rests

|                                    |        |
|------------------------------------|--------|
| Boring Rest (flat top w/guide pin) | 55.00  |
| Standard 3" (1" post)              | 50.00  |
| Standard 6" (1" post)              | 60.00  |
| Standard 9" (1" post)              | 80.00  |
| Standard 12" (1" post)             | 85.00  |
| Standard 14" (1" post)             | 105.00 |
| Standard 16" (1" post)             | 135.00 |
| Standard 22" (1" post)             | 165.00 |
| Standard Finial Rest (1" post)     | 55.00  |
| Mini 3" (5/8" post)                | 45.00  |
| Mini 6" (5/8" post)                | 50.00  |
| Mini 9" (5/8" post)                | 60.00  |
| Mini Finial Rest (5/8" post)       | 50.00  |

### Lasers

|                                  |        |
|----------------------------------|--------|
| Laser Assembly (24" or 36" beam) | 195.00 |
|----------------------------------|--------|

### Traps

|                                       |        |
|---------------------------------------|--------|
| ¾ Trap (Non-adjustable, 5/8" post)    | 95.00  |
| Universal Trap (3/4" - 1 ¼", 1" post) | 205.00 |
| Heavy Duty Universal Trap             | 250.00 |

### Munro Parts

|                                  |        |
|----------------------------------|--------|
| Munro Hollower II Set Carbide    | 210.00 |
| Extra Link                       | 50.00  |
| Adapter for 5/8" Dia.            | 20.00  |
| Adapter for ½" Dia. (3/4" Bar)   | 20.00  |
| 9" Extension Adapter (5/8" Dia.) | 35.00  |
| Carbide Cutter                   | 21.00  |
| Torx Screw for Carbide Cutter    | 7.00   |

### HDPE Cone Centers

|                                   |       |
|-----------------------------------|-------|
| Cone Center Set (3 pc, 1" - 6 ½") | 55.00 |
| Small Cone Center (3/4" - 2 5/8") | 20.00 |

### Miscellaneous

|   |       |
|---|-------|
| 3/8" Adapter, ½" Shaft                  | 15.00 |
| 3/8" Adapter, 5/8" Shaft                | 15.00 |
| 5/8" Shaft Collar (single split)        | 7.00  |
| 15/16" Shaft Collar (single split)      | 8.00  |
| 1" Shaft Collar (single split)          | 10.00 |
| Sm. Teardrop Scraper Assy, (1/2" shaft) | 35.00 |
| Sm. Teardrop Scraper (Sorby RS222)      | 14.00 |
| Lg. Teardrop Scraper Assy. (5/8" shaft) | 50.00 |
| Lg. Teardrop Scraper (AZ Carbide)       | 35.00 |
| Colt Maxicut Bit Adapter                | 35.00 |
| 5/8"-1" Adapter Sleeve                  | 35.00 |
| 1"-1 1/8" Adapter Sleeve                | 35.00 |

|  |               |
|--|---------------|
| <b>Complete Small Set (for 10"-14" lathes)</b> | <b>425.00</b> |
|--|---------------|

# ADVANCED LATHE TOOLS, LLC

## Average Depth Capacities for Advanced Lathe Tools Boring Bars:

Boring Bar capacities are dependent on many factors. The most important are the species of wood, moisture content, type of cutter or scraper, amount of edge presented to the wood, and lathe speed. The following capacities are provided for purposes of comparison, and actual capacities may vary greatly. Lengths are nominal. Single length is from the front end of the bar to the point of doubling.

| BAR    | DEPTH CAP. | LENGTH                        |
|--------|------------|-------------------------------|
| 3/4"   | 12"        | (32" long, 8" single length)  |
| 1"     | 16"        | (44" long, 10" single length) |
| 1 1/8" | 24"        | (58" long, 12" single length) |
| 1 1/4" | 33"        | (78" long, 14" single length) |

## Advanced Lathe Tools Boring Bar Support Systems Height Ranges (top of rest):

Allow for the thickness of the boring bar. Cutters generally are mounted on the center of the diameter or thickness of the bar.

|        |                                   |
|--------|-----------------------------------|
| Small  | 4 1/4" – 5 5/8" (10" – 11" swing) |
| Medium | 5 1/8" – 7 7/8" (11" – 16" swing) |
| Large  | 8" – 13 1/2" (17" – 25" swing)    |

## Maximum Diameter Capacities for Advanced Lathe Tools Center Steadies

|     |         |
|-----|---------|
| 10" | 8 1/2"  |
| 12" | 10 1/4" |
| 16" | 13 3/4" |
| 18" | 15 1/4" |
| 20" | 17 1/4" |
| 24" | 20 1/4" |

## Horizontal Swing Widths of Advanced Lathe Tools Traps

|   |     |
|---|-----|
| 5/8" Mini Trap, fixed slot, 5/8" post                       | 10" |
| 3/4" Trap, fixed slot, 5/8" post                            | 16" |
| Universal Trap (1" Bars), 3/4" to 1 1/4" slot, 1" post      | 23" |
| Heavy Duty Trap (1 1/8" Bars), 3/4" to 1 1/4" slot, 1" post | 26" |

## Advanced Lathe Tools HDPE Cone Centers

Cone Center Set, 3 piece, 1" to 6 1/2" diameters  
Small Cone Center, 3/4" to 2 5/8"
